

**Pediatric Environmental Health Nurse**  
**Misericordia Community Hospital**  
Permanent Full-Time

Reporting directly to the Director of Women & Children's Health, the Pediatric Environmental Health Nurse provides an expanded range of knowledge in Pediatrics with a focus in Environmental Health. The nurse assesses all new patients who are referred to the clinic with environmental concerns performing initial assessments, history and physical examination. The nurse collaborates with the attending physician in developing a care plan ensuring the appropriateness of the decisions through evidence based research.
